**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-5 and 7-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant arguments spanning pages 9-13 of Remarks filed 10/3/03 are persuasive in overcoming the rejection of claim 1 as being anticipated by Cordova-Plaza (U.S. Patent No. 5,082,349) and the rejection of claims 1, 11, 14, and 19 as unpatentable over Ando (U.S. Patent No. 5,694,496) in view of Reule (U.S. Patent No. 4,634,215) and Sasaki (U.S. Patent No. 4,640,615). Particularly, amendments applied to claim 1 are sufficient to distinguish the waveguides as planar waveguides on a common substrate, which is not presented or suggested by Cordova-Plaza. Arguments presented on pages 10-13 are persuasive in showing that the combination of references do not teach placing a crystal core fiber between two segments of a planar waveguide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
